Fresh Pork

Tenderloins & Boneless Backs

Pork Tenderloins

The tenderloin has earned its name — as it is the tenderest filet of pork. Each lean filet is closely trimmed and sealed in a vacuum package to stay fresh.

Boneless Backs

These versatile, boneless pork loins come with excess fat carefully trimmed and removed thus eliminating waste. You pack and sell every pound you buy. These boneless backs are ideal for boneless pork roasts, chop suey meat, boneless center cut pork chops, butterfly chops, and more.
